# Technology Stack

# Industries We Serve

Automotive

Mining

Telecoms

Transportation

Public Services

Utilities

# Service Offerings

## SAP & Enterprise ERP Consulting

### ■ SERVICES/EXPERTISE

#### **SSAP S/4HANA Migration & RISE with SAP:**

Smooth transition from ECC to S/4HANA, integrating business transformation with SAP RISE and GROW.

#### **SAP BTP & Integration Services:**

Enhancing SAP with cloud-based low-code/no-code development, automation, and analytics.

#### **HXM & SAP SuccessFactors:**

Modernizing workforce management with Talent Management, Payroll, and Workforce Analytics.

#### **SAP Procurement & Supply Chain (Ariba & Fieldglass):**

Optimizing Source-to-Pay, supplier lifecycle, contracts, and contingent workforce solutions.

#### **SAP IBP for Supply Chain:**

Enabling planning, real-time forecasting, and control tower visibility.

#### **SAP CX & CRM Solutions:**

Transforming sales, marketing, commerce, and customer service with SAP Sales, Commerce, and Cloud.

#### **SAP Analytics & BI:**

Driving insights and predictive analytics for real-time decision-making.

#### **SAP Managed Services & Support:**

Comprehensive maintenance, enhancements, and optimization for long-term success.

# Service Offerings

## Cloud & Digital Transformation

### ■ SERVICES/EXPERTISE

#### **Cloud Migrations & Architecture:**

Huawei, AWS, Azure & Google Cloud adoption strategies.

#### **AI-Driven Automation:**

Leveraging AI/ML for enhanced operational intelligence.

#### **Advanced Data Analytics & Business Intelligence:**

Power BI, SAP BW, and real-time data insights.

# Service Offerings

## Strategic IT Consulting & Project Management

### ■ SERVICES/EXPERTISE

#### **IT Roadmaps & Digital Strategy:**

Aligning IT investments with business goals.

#### **PMO & Governance:**

Enterprise-wide project oversight and risk management.

#### **Cybersecurity & Compliance:**

Data protection, governance frameworks & regulatory compliance.

# Service Offerings

## Software Development & Custom Application Engineering

### ■ SERVICES/EXPERTISE

#### **Enterprise Software Solutions:**

Custom application development using modern frameworks like Java, .NET, Python, Node.js, and React.

#### **Cloud-Native & API-Driven Architectures:**

Building scalable, secure, and high-performance applications tailored to enterprise needs.

#### **AI & Machine Learning Development:**

Enhancing business intelligence with AI-powered automation and insights.

#### **Low-Code/No-Code Solutions:**

Accelerating application development using platforms like SAP BTP, Mendix, and Microsoft PowerApps.

# Service Offerings

## Software Testing & Quality Assurance

### ■ SERVICES/EXPERTISE

#### **End-to-End Software Testing:**

Functional, performance, security, and automation testing to ensure scalability, security, and reliability.

#### **Test Automation Frameworks:**

Implementing advanced test automation using Selenium, Appium, and JUnit.

#### **User Acceptance Testing (UAT) & Compliance:**

Ensuring business applications meet regulatory and operational standards before deployment.

#### **Performance & Load Testing:**

Identifying bottlenecks and optimizing applications for high availability and performance.
